

Computer Systems Engineering stream

Second Year

- Computer Programming
- Operating Systems
- Discrete Structures
- Database and Information Management Systems
- Numerical Analysis
- Computer Architecture

Third Year

- Industrial Training
- Digital Electronics
- Programming Languages Design and Implementation
- Data Communication and Networks
- IT Project Management
- Advanced Databases
- Algorithm and Complexity
- Fundamentals of Artificial Intelligence

Fourth Year

- Cloud and High-Performance Computing
- Wireless and Mobile Computing
- Multimedia and Human Computer Interaction
- Projects
- Hardware Design and Implementation
- Distributed Systems
- Data Mining and Warehousing
